

Summary of Notes of 33rd Ventilation Installations Liaison Group Meeting
(held on 26.7.2012)

1 Pre-insulated Duct System

FSD was reviewing the requirement of additional sprinkler provision on top of the LPC Sprinkler Rules for pre-insulated duct system.

2 Inspection of VAC System for Licensed Premises

FSD had sent the revised schematic drawings relating to VAC requirements in licensed premises to the members. HKRVCA and HKACRA would study and provide feedbacks to FSD.

3 Inspection of Fire Dampers in New Building before Occupation

FSD received the copy of recent letter sent by HKRVCA to Buildings Department on "Inspection of Fire Dampers Before Application for Occupation Permit" in May 2012. FSD pointed out that the above issue was under the jurisdiction of BD and findings in the Trial Inspection Scheme had been passed to BD for their follow-up actions.

4 Annual Inspection of Ventilating Systems in Scheduled Premises

FSD reported that the review on renewal procedures for food premises licence was still under way by the Licensing Authority.

5 Revised Registered Fire Engineer Scheme on the Implementation of Third Party Fire Safety Certification

FSD reported that the Business Impact Assessment (BIA) Study had commenced in June 2012.

6 FSD Integrated Licensing, Fire Safety and Prosecution System (LIFIPS)

HKRVCA presented that some problems was encountered by their members during the filling of Annual Inspection Certificates in the web format. FSD would deal with the problems with and reply.

7 Forged Annual Inspection Certificates

HKRVCA reported that they had sent a letter to FEHD in June 2012 regarding fraudulent AICs of two scheduled premises and the concerned RSC(V) had reported the cases to the Police. FSD pointed out in order to avoid future occurrence, the owners of ventilating systems could verify the RSC(V) identities before employing them and suggested to strengthen publicity of information of RSC(V)s. HKRVCA could liaise with FEHD and BD to strengthen publicity for the requirement on employing RSC(V) to carry out annual inspections for the ventilating systems and also in their web-site.
