

# Building Fire Safety Envoy Promotion Video

## Scene 1

- (1) Man: Please be careful.
- (2) Woman: Mr. Chan, why is your building in such a mess? Leaving the rubbles around can cause injuries. It is also against the Fire Safety Ordinance.
- (3) Man: You are right. They leave all the stuff here, and never keep up with the maintenance of the fire service installations. It would be a tragedy if there is a fire.
- (4) Woman: This won't work. Why not join the Building Fire Safety Envoy Scheme? The fire safety standard of our building improves a lot after we have joined this scheme.
- (5) Man: Really?
- (6) Woman: Let me show you.

## Scene 2

- (1) Woman: Mr. Wong, you are here for to inspect today again?
- (2) Caretaker: Yes, I am. It helps to put the residents' mind at peace if I come for inspection more frequently. I am done with this level already. I am going to the next level to inspect now.
- (3) Woman: This building has inspection frequently. It will also ensure that the fire service installations are checked by a registered fire service installation contractor at least once every twelve months. If we spot a fire danger, we will report to the fire services department immediately. There is also a regular fire drill. If there is a fire, we will be able to help each other report and escape.
- (4) Man: The Building Fire Safety Envoy Scheme is great! Can I join too?
- (5) Woman: Of course. The caretakers, Owner's Corporation and tenants of the building can all participate in it.
- (6) Man: I see. Let me tell all the neighbors and caretakers at my building about it so we can join together.
- (7) Woman: Great.
