## **“Big Hearts, Save Hearts” Awards Ceremony cum Carnival**

The Fire Services Department (FSD) has in recent years been making substantial efforts to expand the number and distribution of automated external defibrillators (AED) in Hong Kong. Through the “AED Anywhere for Anyone” (AAA) Programme, the FSD encourages public and private organisations to install publicly accessible AEDs and upload the information to the “Centralized AED Registry for Emergency” (CARE) online information platform, enabling people to gain quick access to an AED for rescuing cardiac arrest patients, and thus improving their chances of survival.

Since the Programme’s launch, many public and private organisations have shown their support and participated by gradually installing AEDs for public use in their premises, creating a visible impact on the accessibility and widespread use of AEDs in the community. To let the public learn more about the AAA Programme, and at the same time honour participating organisations for their support as well as members of the public for having come forward to save a life, the FSD will hold the “Big Hearts, Save Hearts” Awards Ceremony cum Carnival for two consecutive days on 27 and 28 April 2024. The event will be packed with activities, including the Save Heart Award and the Big Heart Award Ceremonies, the “Big Hearts, Save Hearts” Carnival Launching Ceremony, game booths, AED and CPR experience, and more.
