

A joint statement issued anonymously by self-proclaimed members of the FSD

It has recently come to our notice that a joint statement allegedly issued by FSD personnel was making rounds online. We reiterate that “Serving with Courage, Passion and Commitment” remains our mission irrespective of the authenticity of the joint statement. Each of us in the FSD is committed to fighting blazes, rescuing people and treating patients in an impartial manner. This apart, both the FSD and HKPF are entrusted with the responsibility to ensure public safety and protect the life and property of the people. Now the society is going through an unprecedented difficult time. As part of the disciplined services, the FSD is duty-bound to be in full support of the HKSAR Government’s administration and to back up the HKPF’s vigorous law enforcement actions with a view to curbing all violent and illegal acts and restoring social stability as soon as possible.
