

Corruption Prevention Advisory Service (CPAS) of the ICAC

A good governance system is vital for the FSD's counterparts to help sustain public confidence in the firefighting and rescue services provided by the FSD. We would therefore like to introduce to you the Corruption Prevention Advisory Service (CPAS). CPAS, a specialised unit in the Corruption Prevention Department of the ICAC, is dedicated to providing tailor-made, free and confidential advice on system control in common business areas such as procurement and staff administration. You may check out its user-friendly web portal (<https://cpas.icac.hk/EN>) for details of its services and timely and useful resources on corruption prevention such as staff code of conduct, guides and tools, case studies, quick tips and red flags. You may also receive regular updates on corruption prevention information by subscribing to CPAS e-news at https://cpas.icac.hk/EN/Form/Subscription_Form?cate_id=31.
