2 February 2021

To: All Registered Fire Service Installation Contractors

Dear Sir/Madam,

**Precautionary Measures against Coronavirus Disease 2019 (COVID-19)
in the Workplace and Acceptance Inspection of FSI**

In view of the severe epidemic situation in our community, we would like to remind all Registered Fire Service Installation Contractors to remain vigilant and continue taking precautionary measures against the disease in the workplace. Recently, there have been infected cases involving construction workers. Therefore, your attention is drawn to the precautionary measures as advised by our personnel pertinent to the conditions of construction sites during the course of FSI acceptance inspection.

For precautionary measures in workplace, you may refer to the advice as mentioned in our letter of 8 December 2020, such as minimise the number of people involved in the inspection; keep body temperature and check physical condition regularly; wear surgical masks and practise social distancing of at least 1.5 m away from others.

In order to avoid hindering the progress of inspections and to prevent the disease from spreading, your co-operation and precautionary measures against the epidemic should be put in place accordingly.

For enquiries, please contact Mr. CHAN Wai-lam, Engineer of the FSI Division of the FSD at 3961 5200.

Yours faithfully,

(LEUNG Kwun-hong)

for Director of Fire Services
