22 October 2016

To: Recipients of FSD Circular Letters
and Members of the VILG

Dear Sir/Madam,

FSD Circular Letter No. 4/2016

**Use of Pre-insulated Panels for the Construction
of Air Ducts in Mechanical Ventilating Systems**

The two-year trial period for the use of pre-insulated panels for the construction of air ducts in mechanical ventilating systems specified in FSD Circular Letter No. 1/2014 will lapse on 30 October 2016. In order to allow the manufacturers and practitioners in the mechanical ventilation industry to acquaint themselves with the techniques and gain practical experience in testing and using such pre-insulated panels for compliance with the requirements stipulated in FSD Circular Letter No. 1/2014, the Ventilation Installations Liaison Group has proposed to extend the trial period of the Circular Letter for two years.

The extended trial period for FSD Circular Letter No. 1/2014 will take effect from 30 October 2016 to 29 October 2018, after which a review will be conducted to assess the suitability for long term adoption.

Yours faithfully,

(Robert LAU)

for Director of Fire Services
