16 November 2018

To: Recipients of FSD Circular Letters
and Members of the VILG

Dear Sirs/Madams,

FSD Circular Letter No. 1/2018

**Use of Pre-insulated Panels for the Construction
of Air Ducts in Mechanical Ventilating Systems**

The extended trial period for the use of pre-insulated panels for the construction of air ducts in mechanical ventilating systems specified in FSD Circular Letter No. 4/2016 have lapsed on 30 October 2018. At present, only one product satisfying the technical requirements stipulated in FSD Circular Letter No. 1/2014 was received and approved by this Department in September of this year. With a view to facilitating the trade to accumulate relevant practical experience, the Ventilation Installation Liaison Group has proposed to further extend the trial period for another two years.

As such, a further extension of trial period for FSD Circular Letter No. 1/2014 will take effect from 30 October 2018 to 29 October 2020 after which a review will be conducted to assess the suitability for long term adoption.

Yours faithfully,

(LEUNG Kwun-hong)
for Director of Fire Services
