5 September 2025

To: Recipients of FSD Circular Letters

Dear Sir/Madam,

FSD Circular Letter No. 5/2025
Notice on the Introduction of Revised Certificate of
Fire Service Installations and Equipment [F.S. 251 (Rev. 1/2025)]

This Circular Letter (“CL”) serves to announce that the revised Certificate of Fire Service Installations and Equipment (F.S. 251) (Rev. 1/2025), as set out at **Appendix I**, will come into general use with effect from **1 October 2025**. On the same date, FSD Circular Letters No. 2/2001 will be repealed and superseded by this CL.

Key Revisions to the Certificate

To facilitate Registered Fire Service Installation Contractors (RFSICs) in properly completing the F.S. 251 and to enable a more accurate reflection of the condition of fire service installations and equipment (FSIs) for appropriate follow-up actions, the Certificate has been revised with the following key amendments:

- i) Enhanced fields for building particulars;
- ii) More specific and precise categorisation of licensed/registered premises;
- iii) Inclusion of corresponding reference numbers for “Notification of FSI Shutdown/Major Defect/Resumption”; and
- iv) Indication of major defects¹ in major FSIs.

¹ Please note that for principles and requirements for classification of major defect(s) in major system(s), reference should be made to FSD Circular Letter 1/2021 or any relevant Circular Letter(s) promulgated by the Director from time to time regarding “Shutdown of Fire Service Installations for Maintenance, Inspection, Modification or Repair” as appropriate.

To ensure the proper completion of the revised F.S. 251, RFSICs shall refer to and comply with the guidelines stipulated in the following documents:

Type of Document	Appendix No.
Samples of properly completed F.S. 251	Appendix II
Explanatory note for the revised F.S. 251	Appendix III
Full list of codes for all types of FSIs	Appendix IV

Transitional Arrangement

To allow sufficient time for the trade to familiarise themselves with the revised F.S. 251, both F.S. 251 (Rev. 1/2025) and the existing F.S. 251 (Rev. 1/2016) will be accepted by the FSD during the transitional period from **1 October 2025 to 31 March 2026**. From **1 April 2026**, F.S. 251 (Rev. 1/2016) shall be deemed obsolete and must no longer be used. Submissions using the obsolete version will not be accepted.

Availability of the Revised Certificate

Physical copy of F.S. 251 (Rev. 1/2025) may be purchased at the following location during office hours:

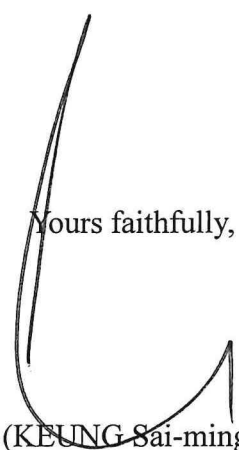

**South Wing, 5th Floor, Fire Services Department Headquarters Building,
No. 1 Hong Chong Road, Tsim Sha Tsui East, Kowloon, Hong Kong**

An updated electronic version will also be issued to RFSICs for use during the transitional period. RFSICs are advised to regularly check the following website for the latest updates regarding the submission of physical and electronic copies after the transitional period:

https://www.hkfsd.gov.hk/eng/fire_protection/cert/fs251/index.html

A seminar regarding the completion guide for F.S. 251 (Rev. 1/2025) will be conducted via the “FSD Connects with the Industries” platform. Details will be announced separately on the FSD website (www.hkfsd.gov.hk) and relevant channels.

For further information, please contact the Fire Protection Facilities Supervision Division at 2733 1567.

Yours faithfully,

(KEUNG Sai-ming)
for Director of Fire Services

Encl.

備註
Remark

Please refer to Explanatory Note Part V

F.S. 251 (Rev. 1/2025)

Explanatory Note for the Revised F.S. 251

Important Notes:

A. Responsibilities of Registered Fire Service Installation Contractors (RFSICs)

- RFSICs should remind owners of fire service installations and equipment (FSIs) that all FSIs shall be inspected by an RFSIC at least once in every 12 months after the date of completion of annual inspection.
- RFSICs are required to issue a certificate (F.S. 251) to the person on whose instructions the works were undertaken and forward a copy to the Director of Fire Services within 14 days after completion of the relevant works.
- RFSICs are obligated to ensure that all particulars entered on the F.S. 251 are complete, accurate, and consistent with the actual conditions of the FSIs. Providing false, misleading, or incomplete information constitutes a contravention of statutory obligations pursuant to regulation 9 of the Fire Service (Installations and Equipment) Regulations (Cap. 95B). Any person who signs a certificate which is false or misleading in any material particular commits an offence and is liable on conviction to a fine at level 5 and the name of the registered contractor may be removed, either permanently or for such period as the disciplinary board thinks appropriate, from the register.
- Pursuant to regulation 10 of the Fire Service (Installation Contractors) Regulations (Cap. 95A), failure to follow the instructions as stipulated in this Circular Letter may constitute “improper conduct or negligence” in the maintenance, repair, or inspection of FSIs and such render the RFSIC concerned unfit to be on the register. The RFSIC concerned may be referred to the disciplinary board by the Director of Fire Services.

B. Format Requirements

- All information shall be entered tidily and neatly within the designated fields of the F.S. 251. If any information is placed outside the designated fields, the certificate will be returned, and resubmission will be required.
- For submission by means of editable PDF form of F.S.251, all entries must be filled in using electronic methods within the editable PDF form. Handwritten or typewritten submission will not be accepted.
- Where additional information beyond the capacity of the designated fields of the F.S. 251 is necessary, RFSICs shall use only the standard appendix provided by the Fire Services Department. Appendices in any other format will not be accepted. The standard appendix is available for download from:
<https://www.hkfsd.gov.hk/eng/enquiry/download/index.html#FSIC>

I. Sample F.S. 251

A sample of the completed F.S. 251 is printed on the inside page of the front cover of each F.S. 251 booklet.

II. Language Medium

The certificate may be completed in **either Chinese or English**.

III. Particulars of Building / Premises

- | | | | |
|------|-------------------------------|---|--------------------------------------------------------------------------------------|
| i) | FSD Ref. | - | Fire Services Department's file reference number, if applicable. |
| ii) | Name of Client | - | State the full name of the person or entity who instructs the work to be carried out |
| iii) | Address of Building | - | Self-explanatory |
| | Block | - | |
| | Name of Building | - | |
| | Name of Estate/Village | - | |
| | Number and Name of Street/Lot | - | |
| | District | - | |

- iv) Area - Indicate the appropriate area by marking the corresponding box provided on the form.
- v) Type of Licensed / Registered Premises (If applicable) - Tick the appropriate box provided on the form, if applicable;
- All RFSICs **shall** prepare a **separate** Certificate (F.S. 251) for **each** individual building block or licensed / registered premises, such as food premises, guesthouses, dangerous goods stores, or other premises subject to licensing or registration; and
- Under no circumstances shall a single F.S. 251 contain information relating to **more than one** individual building block or independent licensed / registered premises.

IV. Particulars of Fire Service Installations (Part 1, Part 2 and Part 3)

(A) Common items

- i) Code -
 - ii) Type of FSI -
 - iii) Location(s) -
 - iv) Comment on Condition -
 - v) Completion Date -
- Insert the code and type of FSI / equipment shown on the overleaf of the revised F.S. 251 (as shown in Appendix IV)
- To specify the exact location of the fire service installations and/or equipment that have been installed, maintained, repaired, and/or inspected. The description shall be sufficiently clear and precise to enable easy identification of the installations or equipment within the premises.
- To specify whether the FSI / Equipment conforms to FSD requirements
- Self-explanatory

(B) Other items

- i) Due Date - The due date shall normally be set as **one year** after the date of completion of the works, unless otherwise specified by FSD.
- ii) Nature of Work Carried out - To clearly state the type of works undertaken, such as installation, maintenance, repair, inspection, or other specified activities.
- iii) Notification of FSI Shutdown/Major Defect/Resumption - Where the *Notification of FSI Shutdown / Major Defect / Resumption* has been stamped with an FSD serial number by the Fire Service Communication

- | | |
|----------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| (FSD Serial Number) | Centre (FSCC), the serial number shall be stated;
and |
| iv) Defects (Please indicate major defects in major system(s) with a “ * ” sign) | - If the Notification of FSI Shutdown/Major Defect/Resumption has been submitted but a reply from FSCC has not yet been received, the entry shall be marked “ Pending ”. |
| v) Comment on Defects | - To indicate what remedial measures, such as replacement and repair, are required |

V. Particulars of Registered Fire Service Installation Contractors

- | | |
|-------------------------------------------------------------|-----------------------------------------------------------------------------------------------|
| i) Signature of Authorized Signatory | - To be signed by the person with specimen signature supplied to the Fire Services Department |
| ii) Name of Authorized Signatory | - Name of the authorized person signing the F.S. 251 |
| iii) Registration No. | - Registration number of the Registered Fire Service Installation Contractor |
| iv) Name of Registered Fire Service Installation Contractor | - } Self-explanatory |
| v) Telephone | - } |
| vi) Email address | - } |
| vii) Date | - Date of signing the F.S. 251 |
